Packages InnerRangeHardware.dll under its correct name and adds Newtonsoft.Json.dll, so the driver loads without Inception Access i
No longer writes the panel password to the debug log after a reconnect

Licensing and Copyright Information

This software and licence are made available by SI Sound and Light T/A LCD either by download from our website or by direct installation on your Crestron Home system using the Crestron Home Setup App, which downloads the software via the drivers.crestron.io Portal API.

Licences can be purchased from our website. By Installing this software on your Crestron Home System you are accepting the Software download terms and conditions as detailed on our website which can be read in full here:

Please also see some of excerpts of our warranties and limitations below:

> We warrant to you that your software programs will be supplied to you with reasonable care and skill.
>
> We will not be liable to you in respect of any losses arising out of any event or events beyond our reasonable control.
>
> We will not be liable to you in respect of any business losses, including (without limitation) loss of or damage to profits, income, revenue, use, production, anticipated savings, business, contracts, commercial opportunities or goodwill.
>
> We will not be liable to you in respect of any loss or corruption of any data, database or software.
>
> We will not be liable to you in respect of any special, indirect or consequential loss or damage.
>
> We will endeavor, through best efforts, to maintain the software programs functionality as detailed in the software datasheet and any bug fixes will be provided where the software falls short of reasonable acceptance tests.
>
> Where software is providing control of 3rd party devices or reliant on 3rd party Operating systems no warranty is provided with respect to the reliability of the controlled device or changes to device protocol or indeed that of the consuming operating system.
>
> The costs of installing and all commissioning, setup and testing are not included in the software or licence cost. The costs of uninstalling and reinstalling software and all commissioning, setup and testing resulting from a bug fix or a free of charge upgrade are not included in the licence cost.
>
> Software products may be offered as products which offer extended functionality for the same device or function in the future. These may be separate purchasable products.

Please also note for the avoidance of doubt that these excerpts from our software download agreement are superseded by the live full document. Documentation contained in download packages may be out of date and the live document is the relevant contractual document.
